Please provide any special requests or notes below:

### **North American Power Credit Organization**

NAPCO was founded in 1997 to provide a forum for energy credit professionals to network and provide education relating to current credit issues in the wholesale energy industry. NAPCO has three main objectives:

- **Education**
- **Networking**
- **Mentoring**

#### **NAPCO Membership:**

A NAPCO membership is a company-wide membership (rather than specific individual) NAPCO membership allows your company to send as many employees to as many of the three NAPCO meetings held throughout the current fiscal year, that begins February 1, 2010 and ends January 31, 2011.

NAPCO offers two reasonably priced membership types as follows:

- **Full membership** is \$750 per company (applies to *all* employees of member company) and is designed for those companies that directly transact in the wholesale energy markets.
- **Associate membership** is \$1,400 per company (applies to *all* employees of member company) and is designed for those companies that provide various energy credit support functions in the industry.

Either membership option is a valuable opportunity to tap into NAPCO's first-class educational content and the organization's relaxed and casual networking environment.
